All Questions | **18** Correct | **1** Partially Correct | **11** Incorrect

Question 1 of 30

Which of the following services are appropriate for a Scrum Master in regard to the Daily Scrum?

(choose the best answer)

Correct answer: **D)**
You chose: **A)**
Note: This question displayed answer options in random order when taking this Test.

✘ **A)** All answers apply.

  B) Facilitate in a way that ensures each team member has a chance to speak.

  C) Lead the discussions of the Development Team.

➡ **D)** Teach the Development Team to keep the Daily Scrum within the 15 minute time-box.

  E) Ensure that all 3 questions have been answered.

Feedback

The Scrum Master ensures that the Development Team has the meeting, but the Development Team is responsible for conducting the Daily Scrum. The Scrum Master teaches the Development Team to keep the Daily Scrum within the 15-minute time-box. The Scrum Master enforces the rule that only Development Team members participate in the Daily Scrum.

Question 2 of 30

Which of the below are roles on a Scrum Team?

(choose the best three answers)

Correct answer: **A) B) E)**
You chose: **A) B) E)**
Note: This question displayed answer options in random order when taking this Test.

- ✔ **A)** Product Owner
- ✔ **B)** Scrum Master
- **C)** Customers
- **D)** Users
- ✔ **E)** Development Team

Feedback

The Scrum Team consists of a Product Owner, the Development Team, and a Scrum Master.

Question 3 of 30

The Development Team should not be interrupted during the Sprint. The Sprint Goal should remain intact. These are conditions that foster creativity, quality and productivity.

(Which one the following answers is FALSE?)

Correct answer: **D)**
You chose: **B)**
Note: This question displayed answer options in random order when taking this Test.

- **A)** As a decomposition of the selected Product Backlog Items, the Sprint Backlog changes and may grow as the work emerges.

✕ **B)** The Development Team may work with the Product Owner to remove or add work if it finds it
has more or less capacity than it expected.

C) The Product Owner can help clarify or optimize the Sprint when asked by the Development
Team.

➡ **D)** The Sprint Backlog is fully formulated in the Sprint Planning meeting and does not change
during the Sprint.

Feedback

The Sprint Backlog makes visible all of the work that the Development Team identifies as necessary to meet the
Sprint Goal. The Development Team modifies the Sprint Backlog throughout the Sprint, and the Sprint Backlog
emerges during the Sprint.

Question 4 of 30

True or False: It is mandatory that the product increment be released to production at the end of
each Sprint.

Correct answer: **B)**
You chose: **A)**

✕ **A)** True

➡ **B)** False

Feedback

The product increment should be usable and releasable at the end of every Sprint, but it does not have to be
released.

Question 5 of 30

The three pillars of empirical process control are:

(choose the best answer)

Correct answer: **D)**
You chose: **D)**
Note: This question displayed answer options in random order when taking this Test.

A) Planning, Demonstration, Retrospective

B) Transparency, Eliminating Waste, Kaizen

    C) Respect For People, Kaizen, Eliminating Waste

✔ **D)** Inspection, Transparency, Adaptation

    E) Planning, Inspection, Adaptation

Feedback

Scrum is founded on empirical process control theory, or empiricism. Empiricism asserts that knowledge comes from experience and making decisions based on what is known.
Three pillars uphold every implementation of empirical process control: transparency, inspection, and adaptation.

Question 6 of 30

Which statement best describes Scrum?

(choose the best answer)

Correct answer: **C)**
You chose: **A)**
Note: This question displayed answer options in random order when taking this Test.

✗ **A)** A defined and predictive process that conforms to the principles of Scientific Management.

    B) A cookbook that defines best practices for software development.

➡ **C)** A framework within which complex products in complex environments are developed.

    D) A complete methodology that defines how to develop software.

Feedback

Scrum is not a process or a technique for building products; rather, it is a framework within which you can employ various processes and techniques.

Question 7 of 30

Who is required to attend the Daily Scrum?

(choose the best answer)

Correct answer: **A)**
You chose: **B)**
Note: This question displayed answer options in random order when taking this Test.

➡ **A)** The Development Team.

✖ **B)** The Development Team and Product Owner.

C) The Scrum team.

D) The Development Team and Scrum Master.

E) The Scrum Master and Product Owner.

Feedback

Only the people doing the work described on the Sprint Backlog need to inspect and adapt at the Daily Scrum. If the Scrum Master or Product Owner is also on the Development Team, they will need to be at the Daily Scrum. Otherwise, the Scrum Master simply has to make sure the Development Team knows how to conduct a Daily Scrum and does so.

Question 8 of 30

When does the next Sprint begin?

(choose the best answer)

Correct answer: **B)**
You chose: **B)**
Note: This question displayed answer options in random order when taking this Test.

A) Immediately following the next Sprint Planning.

✔ **B)** Immediately after the conclusion of the previous Sprint.

C) When the Product Owner is ready.

D) Next Monday.

Feedback

A new Sprint starts immediately after the conclusion of the previous Sprint.

Question 9 of 30

Who should know the most about the progress toward a business objective or a release, and be able to explain the alternatives most clearly?

(choose the best answer)

Correct answer: **A)**
You chose: **A)**
Note: This question displayed answer options in random order when taking this Test.

✓ **A)** The Product Owner

    B) The Project Manager

    C) The Development Team

    D) The Scrum Master

Feedback

The Product Owner is the sole person responsible for managing the Product Backlog, which includes that the Product Backlog is visible, transparent, and clear to all, and shows what the Scrum Team will work on next.

Question 10 of 30

Who has the final say on the order of the Product Backlog?

(choose the best answer)

Correct answer: **A)**
You chose: **A)**
Note: This question displayed answer options in random order when taking this Test.

✓ **A)** The Product Owner

    B) The Stakeholders

    C) The Scrum Master

    D) The CEO

    E) The Development Team

Feedback

The Product Owner is the sole person responsible for managing the Product Backlog.

Question 11 of 30

The length of a Sprint should be:

(choose the best answer)

Correct answer: **D)**
You chose: **C)**

      A) Short enough to keep the business risk acceptable to the Product Owner.

      B) Short enough to be able to synchronize the development work with other business events.

✕ **C)** No more than one month.

➡ **D)** All of these answers are correct.

Feedback

All of these choices are appropriate considerations in determining the length of a Sprint.

Question 12 of 30

What is the recommended size for a Development Team (within the Scrum Team)?

(choose the best answer)

Correct answer: **C)**
You chose: **C)**
Note: This question displayed answer options in random order when taking this Test.

      A) 9

      B) 7 plus or minus 2

✔ **C)** 3 to 9

      D) Minimal 7

Feedback

Optimal Development Team size is small enough to remain nimble and large enough to complete significant work. Fewer than three Development Team members decreases interaction and results in smaller productivity gains. More than nine members simply requires too much coordination.

Question 13 of 30

During a Sprint, a Development Team determines that it will not be able to finish the complete forecast. Who should be present to review and adjust the Sprint work selected?

(choose the best answer)

Correct answer: **D)**

You chose: **D)**

Note: This question displayed answer options in random order when taking this Test.

    A) The Product Owner and all stakeholders.

    B) The Development Team.

    C) The Scrum Master, the project manager and the Development Team.

  ✔ **D)** The Product Owner and the Development Team.

Feedback

During the Sprint, scope may be clarified and re-negotiated between the Product Owner and Development Team as more is learned.

Question 14 of 30

True or False: The Scrum Team should choose at least one high priority process improvement, identified during the Sprint Retrospective, and place it in the Product Backlog.

Correct answer: **B)**

You chose: **B)**

    A) True

  ✔ **B)** False

Feedback

False, to ensure continuous improvement, the Sprint Backlog rather than the Product Backlog includes at least one high priority process improvement identified in the previous Sprint Retrospective meeting.

Question 15 of 30

Which two things does the Development Team do during the first Sprint?

(choose the best two answers)

Correct answer: **C) D)**

You chose: **A)**

Note: This question displayed answer options in random order when taking this Test.

  ✘ **A)** Determine the complete architecture and infrastructure for the product.

B) Create the complete Product Backlog to be developed in subsequent Sprints.

➡ **C)** Deliver an increment of potentially releasable software.

➡ **D)** Develop and deliver at least one piece of functionality.

E) Develop a plan for the rest of the release.

Feedback

The heart of Scrum is a Sprint, a time-box of one month or less during which a "Done", useable, and potentially releasable product Increment is created. This applies to every Sprint.

Question 16 of 30

The Product Backlog is ordered by:

(choose the best answer)

Correct answer: **B)**
You chose: **C)**
Note: This question displayed answer options in random order when taking this Test.

A) Items are randomly arranged.

➡ **B)** Whatever is deemed most appropriate by the Product Owner.

✗ **C)** Risk, where safer items are at the top, and riskier items are at the bottom.

D) Least valuable items at the top to most valuable at the bottom.

E) Size, where small items are at the top and large items are at the bottom.

Feedback

The Product Owner decides what makes the most sense to optimize the value of the work being done by the Development Team.

Question 17 of 30

When does a Development Team member become the sole owner of a Sprint Backlog item?

(choose the best answer)

Correct answer: **C)**
You chose: **C)**
Note: This question displayed answer options in random order when taking this Test.
